

DR. ZHANG WEIBO

*CHAIR OF BIOLOGY & CHEMISTRY
DEPARTMENT AND MATHEMATICS
DEPARTMENT*

BIO

Dr. Zhang has a passion and dedication for life sciences. She has a research background in immunology and microbiology, and has industry experience designing tumor immunotherapy and vaccines against infectious diseases. In the past five years, Dr. Zhang has been able to inspire Dalton students with engaging and challenging classes. She also coaches students who are interested in biology research with university-level lab research in and outside the campus.

Furthermore, as the leader for both the biology and chemistry department and the math department of the Dalton Academy, she is dedicated to offering the best math and science curriculum to students with various learning demand through close collaboration with her passionate and professional colleagues.
