

DR. GARAY MENICUCCI

BRIDGING PROGRAM COORDINATOR

BIO

Dr. Garay Meniccuci is an inspiring teacher who has developed an Experiential Learning Course called: Introduction to the Refugee Crisis in the Middle East. The course directly addresses global social justice issues and has been nothing short of life-changing for everyone involved. One outcome of the initial Refugee Crisis course and the student experiential learning trip to Jordan has been an institutional commitment to support two annual full scholarships for students at risk in Jordan to complete their last year of high school at Dalton Academy. We are really proud to say that we are the first and only high school in China with this kind of scholarship!
